

turbo® II Model 46 - 7" HD46/7"

The original precleaner. The engine intake air activates the mechanical cleaning of the precleaner. No maintenance required. There is a lifetime warranty on the high-powered, highly efficient ejection spinner.

turbo® II performs its job in the toughest environments day in and day out. The unique design is all about preventing micro-abrasive dust from entering the machine's engine creating cleaner air to prolong the engine life. turbo® II is the industry standard precleaner by which all precleaners are judged.

From its durable metal construction to its high efficiency and low restriction across the entire range, turbo® II is chosen worldwide by equipment operators for installation on loaders, graders, crushers, haulers, mixers, and mining machines. Anywhere a high level of protection is needed and where dust is an issue, the turbo® II is a must.
